The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in North Macedonia at the

Autonomous power supply for oil & gas wells, TETRA towers, CP, RTUs, drilling sites and any other critical equipment. Designed for operation under harshest

manufacturers that meet the highest standards for product quality, manufacturing capacity, and bankability, making them trusted suppliers for large-scale, finance-backed energy projects.

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

Fleks Power focuses on the production, design, sale, installation and service of: spare and uninterruptible power supply systems (diesel) and alternative power

Summary: Explore how Skopje's battery energy storage cabinets address growing industrial and renewable energy demands. Discover key trends, regional applications, and why modular systems

Autonomous power supply for oil & gas wells, TETRA towers, CP, RTUs, drilling sites and any other critical equipment. Designed for operation under harshest ambient conditions with extreme

YESS Power said that in November it plans to commission a 60 MWh battery energy storage system (BESS) in North Macedonia. The Turkey

Fleks Power focuses on the production, design, sale, installation and service of: spare and uninterruptible

power supply systems (diesel) and alternative power sources (photovoltaic and

Its primary field of interest is power supply systems, as well as reconstruction and construction of middle voltage/ high voltage transformer substations. The company is comprised of fully skilled and

That's exactly what North Macedonia is aiming for with the Skopje Energy Storage Power Station, a grid-scale battery project that's turning heads across the Balkans.

YESS Power said that in November it plans to commission a 60 MWh battery energy storage system (BESS) in North Macedonia. The Turkey-based contractor is installing the

A battery energy storage system (BESS) is an electrochemical device that charges (or collects energy) from the grid or a power plant and then discharges that energy at a later time to provide electricity or
