underlayer support consists in the waterproofing membrane Phoenix Solar Tech <4> mm; Flexible triple-junction photovoltaic module in amorphous silicon.

The company is devoted to production and sales of waterproof material: EPDM waterproof material, SBS/APP bitumen waterproof membrane, self-adhesive bitumen waterproof membrane,

PHOENIX SOLAR is a bituminous waterproofing membrane specifically designed for hosting GENERAL SOLAR PV integrated waterproofing photovoltaic systems.

With the continuous advancement of roof waterproofing

SOPREMA'S RANGE OF INTEGRATED PHOTOVOLTAIC WATERPROOFING MEMBRANES SOLARDIS the reference for building-integrated photovoltaic applications. Exclusive distributor of

The SOPRASOLAR FIX EVO TILT system is solar waterproofing solution for flat roofs used as a support for photovoltaic panels. It allows connection between the panel and cap

General Solar PV is an integrated flexible photovoltaic waterproof system (BIPV - Building Integrated Photovoltaic) certified according to the technical standards CEI EN 61646 and CEI EN 61730.

With the continuous advancement of roof waterproofing material technology, the application fields of new waterproof materials are becoming more and more extensive, such as TPO

PHOENIX SOLAR is a bituminous waterproofing membrane specifically designed for hosting GENERAL SOLAR PV integrated waterproofing photovoltaic systems. This membrane is certified by the Italian

Sika supplies Sika SolaRoof® System - a full range of products to design and build your full solar roof system with one supplier. Sika® SolarMount-1 (SSM1) -a lightweight, aerodynamic and

Sika supplies Sika SolaRoof® System - a full range of products to design and build your full solar roof system with one supplier. Sika® SolarMount-1

SOPREMA'S RANGE OF INTEGRATED PHOTOVOLTAIC WATERPROOFING MEMBRANES
SOLARDIS the reference for building-integrated photovoltaic

1. Foreword The aim of this Technical book is to provide technical, design and construction information and solutions for the correct installation of waterproofing membranes and

1 Fix PVC/TPO synthetic membrane finishing layer. The system is installed onto the visible waterproofing layer (after verifying its cohesion to the support) by means of molecular
