Una estación base o BTS (Base Transceiver Station) es un elemento de red de comunicaciones móviles fundamental, quizá el más importante, se trata de un equipamiento fijo

Nos stations de base longue portée et nos liaisons micro-ondes P2P/PtMP offrent des performances de niveau opérateur pour campus, communautés, sites offshore et opérations critiques en Central

Telecommunications in the Central African Republic includes radio, television, fixed and mobile telephones, and the Internet as well as the postal system. Persistent conflict has hampered telecommunication and media development in the Central African Republic. There are active television services, radio stations, Internet service providers, and mobile phone carriers. Radio is the most-popular communications medium.

Las telecomunicaciones en la República Centroafricana incluyen radio, televisión, telefonía fija y móvil e Internet, así como el sistema postal. El conflicto persistente ha obstaculizado el desarrollo de las

Telecel Centrafrique SA is a telecommunications company operating in the Central African Republic. It was established in the year 1986, and it provides a range of communication services to the residents

NOTE: The information regarding Central African Republic on this page is re-published from the 2024 World Fact Book of the United States Central Intelligence Agency and other sources.

The Central African Republic is lagging behind in the expansion of broadband internet connections. Around 11 percent of all residents have access to the internet.
